“As for the wedding day, Ernst was extremely laid back and made us both feel comfortable and relaxed. For two people that hate taking “staged” photos, I was delighted that Ernst captured dozens of photos that looked so natural and really captured the couple that we are. We have so many amazing pictures of all of the people in attendance and it’s such a treasure to have. He really captured all of the best parts of the day!” **Chelsea and Gedimina**

“Words cannot begin to express how pleased we were with choosing Ernst as our photographer. His style was a perfect fit for what we were looking for – a focus on capturing the candid moments and real emotions and doing so in a beautiful manner. We were blown away with how wonderful our photos looked and how many little moments he captured.” **Jessica & Brad**

“We were very impressed with his vision and technical skills for scenarios with difficult lighting. The resulting images we will cherish for a lifetime, they are just stunning. Ernst captured our wedding day with a unique visual storytelling style combined with beautifully composed posed images.” **Patricia & Luis**

“A great photographer’s images take you by the eye and lead you back into the scene. They make you feel. Such is the photographer I found Ernst to be as I scrolled through the images he took of a wedding I recently attended.” **Fiona Murphy / Wedding Planner**
